

FUTURE IN MY OPINION

So, what about you, Asia?

I think it is a good idea to ask what the students think about how they imagine their future and whether the world will change for them.

What do you think about the future, Asia?

I think it is an unexpected thing, that you pass quickly and you can't go back and you never know how it will go because it can change at any moment and the environment will always be polluted.

Will the world be a better place 20 years from now, Asia?

In my opinion the world will never improve, perhaps there will be improvements or perhaps not, however, given the greed and selfishness of men is difficult for the world to change.
